perpendicular to
physics
science
solid/liquid
space
the area
the bisector
the conquest of space
the cosmos
the countdown
the diameter
the progress

the radius
the result
the solar system
the universe
weightlessness / zero gravity

USEFUL VERBS

to add
to annihilate
to calculate
to conquer
to count
to decrease
to deduce
to demonstrate
to discover
to dissolve
to divide
to double
to draw a line
to evaporate
to explore
to frighten
to increase
to invade
to land on the moon
to launch a rocket
to magnify
to make a mistake
to melt
to multiply
to probe space
to put into orbit
to serve mankind
to simulate
to solve a problem
to spin round
to subtract
to use solvents
